

# Dashboards & Reporting

Dashboard Views make it easy for HR, management, and employees to have easy access to their employee time and attendance data. Breeze 360 comes with dashboards throughout the software for easy visibility of employee data on desktop, web, and mobile app.

## Elevate Your Insight with Dashboards & Reporting

### Personal Dashboards

Designed with visibility in mind, Breeze 360 has specific dashboards designed for every type of employee. From admins to general staff, your information is always right where you need it to be.

### Real-Time Data

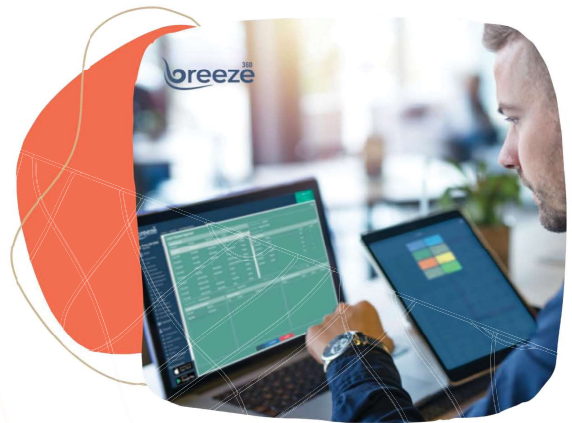

Data is continuously updated in real time, guaranteeing that both reports and dashboards consistently display accurate information.

### Online Reporting

With over 50 report types, create and customize any number of reports with just a few clicks.

### Complex Accruals Simplified

The Breeze 360 dashboard can help you customize and implement your org's accrual policies, no matter how complex.

# A Flexible Tool to Automate Time & Attendance

## Leave Approval

Managers can easily approve leave requests with a few clicks on the dashboard.

## Live In/Out Board

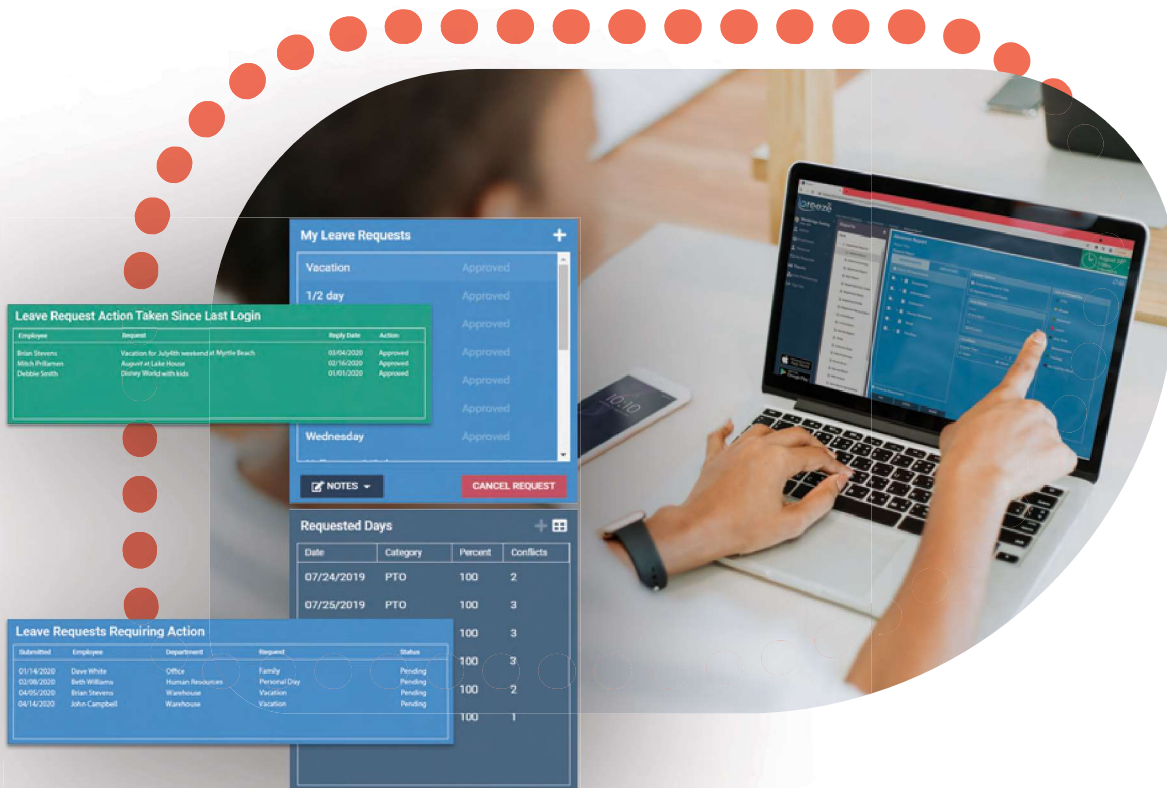

From the dashboard, instantly view who is at work, their project type, and filter by department.

## Geofencing

Manage and approve employee work locations from the desktop or on mobile.

## Mobile App Capability

Access reports on your desktop or through the app, ensuring that you have access to the most current data.

*Intuitive management solutions for every situation*
