

# Point System

Track time and attendance issues within your team for a proactive approach to employee performance. Breeze 360 comes with a configurable points system and acts as a supervisor providing 24/7 monitoring for your team.

## An Enhanced Point System

### Complex Accruals Simplified

Breeze 360 supports even the most complicated accrual policies. Customize policies according to category and employee type and let Breeze 360 keep track for you.

### Easy Leave Management

View employee leave requests on the employee calendar, and click an event for more detail. When approving leave requests, categorize how you see fit, and monitor scheduling conflicts easily.

### Online Reporting

Easily track points and create reports instantly. With numerous report types and endless customizations, Breeze 360 offers an in depth view of your employees' information and activity.

### Real-time Data

View point accruals in real time within the desktop and on the mobile app. Breeze 360 is continually updated, guaranteeing you have the most accurate data available at any moment.

### Automated Leave Approval

Managers can easily approve leave requests with our automated leave approval process. Breeze 360 will also automatically check for conflicts ensuring your organization is adequately staffed at all times.

# Ensure Accuracy and Performance

## Premier Support

We are committed to delivering the highest level of support to our customers. Contact us online and on the phone. You can also reference our detailed tutorial videos for solutions to general issues and common questions.

## Mobile App Capability

Employees can make leave and vacation requests from the Breeze 360 app or online with just a few clicks.
