

Time Tracking

With Breeze 360, time collection has never been easier. Designed to be intuitive and seamless, Breeze 360 offers many different options for employee punch ins, time sheets, and payroll integration. Our software is flexible and able to adapt to nearly every work environment.

The Benefits of Time Tracking

Access Anywhere

View employee time wherever you need to using the mobile app, kiosk, or desktop options.

Real-time Data

Breeze 360 allows managers and HR to remotely view employees' statuses as soon as they punch in. Get alerted when someone is late, has arrived, or is nearing overtime.

Project/Job Tracking

Keep track of employee time and monitor hours dedicated to each project. Ensure project efficiency like never before.

Payroll Integrated

Seamlessly connect your payroll software with Breeze 360. Our time tracking software is compatible with providers like Paychex and Paycor. Upload your employee data manually, or through open API.

A Flexible Tool to Automate Time Collection

Kiosk Integrated

Employees can punch in quickly and securely with Breeze 360 kiosks. Choose from contactless, manual, or tag punch ins.

Live In/Out Board

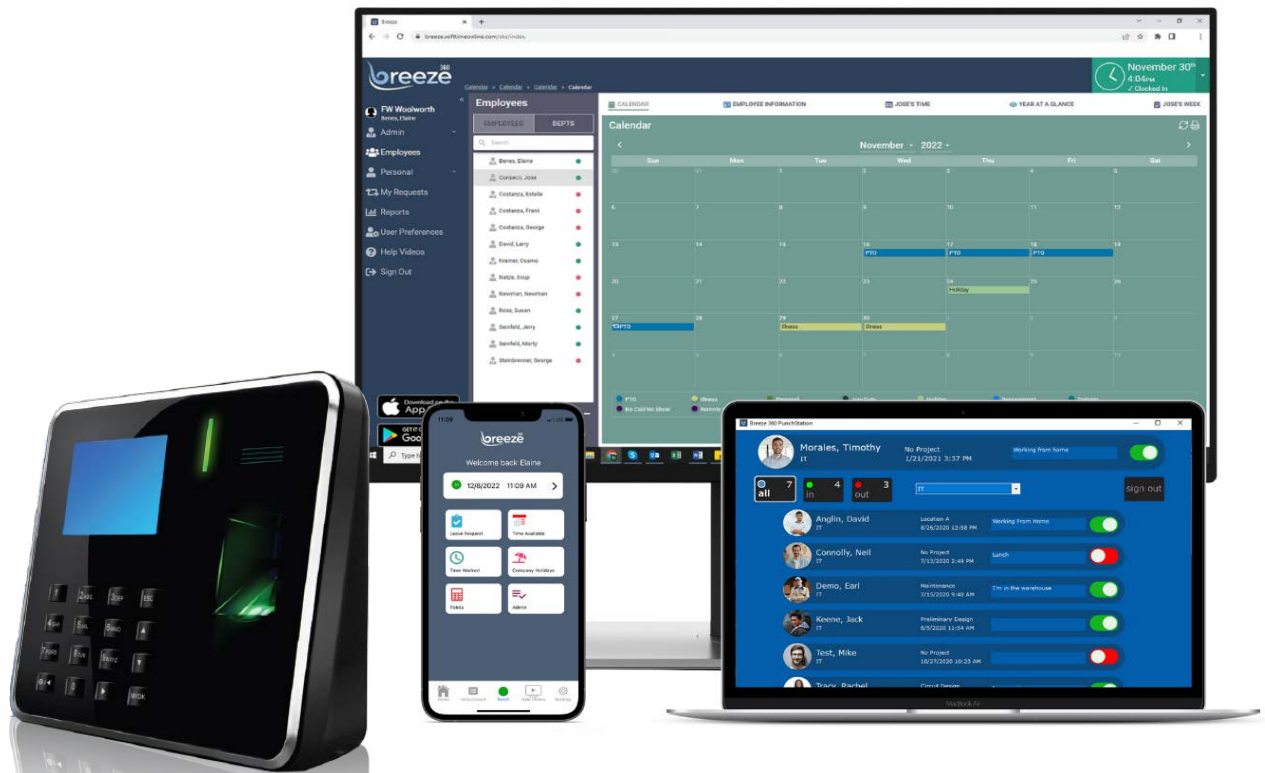

View who is at work, or on a task, instantly. Filter by project type, currently at work, and department.

Mobile App Capability

Employees can punch in and out from their phones, request leave time and view current information and totals.

Geofencing

Breeze 360 allows you to designate and approve remote work sites. Allow employees to punch in and out automatically upon arrival and departure with the mobile app.
