

Scheduling

Anticipate Your Team's Needs with Scheduling

Personal Dashboards

Employees can view their schedule from their personal dashboard online and on mobile. They can also submit and edit their personal availability from the dashboard, making scheduling and planning easier for Admin.

Mobile App Capability

Employees can view their published schedules on the mobile app with a single tap on the home screen. Schedules are always up to date.

Notification

Publish your schedule and your team will be informed instantly. Employees can view their personal schedules wherever they log in to Breeze 360, including our mobile app. Admin can also opt to send a customized instant notification to employees for any reason.

Customization

Admins can create schedules to their team's needs effortlessly. Manage employee availability, create and save standard shifts and projects. Or, create individual shifts for holidays, special projects, etc.

A Flexible Tool to Automate Time & Attendance

Management

Managing a team of any size can be challenging, but we're here to help. No more juggling schedules or conflicting calendars. Schedule multiple employees and multiple shifts at once. Create custom shifts to fit your business needs. Copy and paste your schedule to future weeks to save time.

Real-Time Data

When schedules are published, they are updated in the system immediately, giving employees the confidence that their schedules are always accurate. Employees can see any published schedules with a single tap inside the mobile app, or on desktop.
